Honorable Ruben Pineda  
Mayor, City of West Chicago  
475 Main St.  
West Chicago, IL 60185

Subject: City of West Chicago; Information Request Pursuant to 33 U.S.C. § 1318 of the  
Clean Water Act, Docket No. V-W-14-308-27

Dear Mayor Pineda:

Protecting water quality is a high priority of the U.S. Environmental Protection Agency. The National Pollutant Discharge Elimination System (NPDES) permit program, as authorized by the Clean Water Act (CWA or the "Act"), controls water pollution by regulating point sources that discharge pollutants into waters of the United States.

Additionally, the CWA General Pretreatment Regulations control water pollution by regulating Publicly-Owned Treatment Works (POTWs) which accept wastewater discharged from industrial users. The Illinois Environmental Protection Agency (IEPA) issued NPDES Permit Number IL0023469 to the City of West Chicago. The permit authorizes discharges to waters of the United States in accordance with pretreatment regulations (among other things). The City of West Chicago appears to have had issues with the General Pretreatment Regulations (40 C.F.R. Part 403) that may contribute to poor water quality and impairment of uses within waterways. This request seeks information related to a colored wastewater discharge to the West Chicago Regional Wastewater Treatment Plant that occurred on or around November 20, 2013; effluent limit violations by The Jel Sert Company; the correct categorization for INX International Ink Company; and summary daily wastewater discharge flow records for each of the City's industrial users.

EPA is authorized under section 308 of the CWA, 33 U.S.C. § 1318, to require reports and other information necessary to carry out the purpose of the Act. Accordingly, pursuant to section 308 of the Act, you are directed to provide EPA with the information requested in the enclosure.

Please submit the information requested in the accompanying documents with a statement certifying that all representations contained therein are true and accurate to the best of your knowledge and belief using the certification language provided. Please exercise care to assure that responses are complete and accurate, because section 309(c)(2) of the Act, 33 U.S.C. § 1319(c)(2), provides for the imposition of criminal penalties where false information is knowingly provided to EPA.

Please respond in writing with the information requested in the enclosure, within thirty (30) days of receipt of this letter with copies to:

Water Enforcement and Compliance Assurance Branch  
U.S. Environmental Protection Agency, Region 5  
77 West Jackson Blvd. (WC-15J)
